5
TIPS
FOR
BETTER
ENGAGEMENT
PHOTOS

TIP #1.

The outfits you choose help set the mood of your engagement photos, so wear pieces that you feel comfortable in. If you aren't into dresses, don't wear one! Instead, try a stylish romper or jumpsuit. If your fiancé is into accessories, let him or her rock a trendy hat or colorful shades—simply put, you can't go wrong with pieces that channel your personal style. There's so much more that we'll discuss and cover about your session styling during your phone consultation.

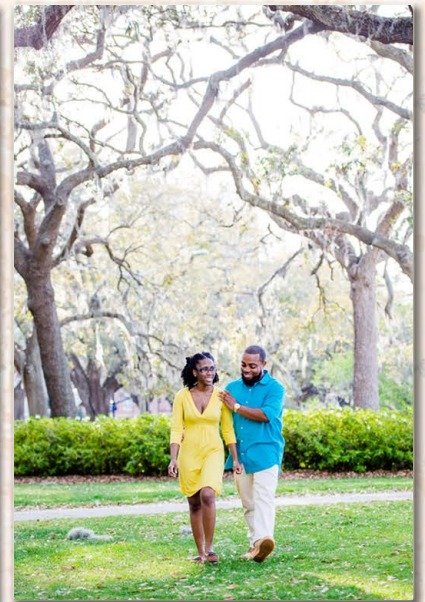

Tip #2

Hire a professional hair and makeup artist (HMUA)! While we can't say this enough and we certainly understand it's an added expense, it makes such a difference. We understand that some clients prefer doing it themselves. If this is you, research makeup products that are specially formulated for photography and diffuse light. We have several HMUA's that we highly recommend and would LOVE to introduce you to.

Tip #3

Let your photographer get to know you and your story a little better. Telling your photographer how you met, funny stories, things you like to do together and how you got engaged are just a few things to add. The more we get to know you, the better we will be able to capture you and your fiance during your session. Don't stress over any of this. We have a fun survey that we send all of our clients to fill out

Tip #4

Relax and enjoy your session. We understand that's easier said than done and not everyone is comfortable in front of the camera. This is honestly where we shine at Coastal Chic Studios. Our approach towards each session keeps everything fun, casual and honest. Todd's subtle coaching and hilarious posing demonstrations redirect and eliminate any awkwardness. You'll have to trust us on this one! haha

Tip #5

We've all been told that great images are often about location, location, location! While this certainly holds some truth, it's definitely not just about the location. It's about how you fit into it. There are endless location possibilities in Savannah, GA. Is there a place that holds significance to the both of you? Perhaps it's where the two of you met, or even where your proposal took place. All of these can be great choices for your engagement session. We'll work together to ensure that we tell your story perfectly!
